

Residential lots

IN SANTA ANA

**MONTAÑA
DEL SOL**

ETERNAL SPRING

**MONTAÑA
DEL SOL**

starting at **\$160,000**

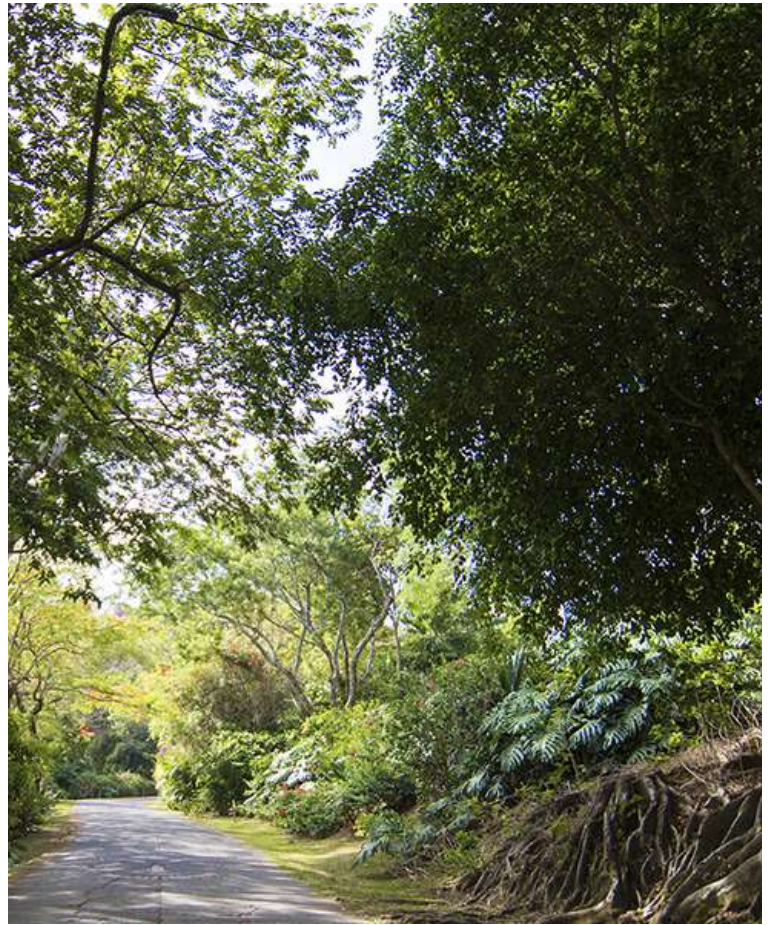

A TRULY SPECIAL RESIDENTIAL LIVING PROJECT UNLIKE ANY OTHER IN COSTA RICA

Located in the mountains above Santa Ana, Montaña del Sol offers privacy, fresh air, cool weather, forest and city views, all within minutes from all the major urban offerings of Santa Ana and connecting highway. Pricing is extremely attractive and well below market value. This is a very special opportunity.

6ha of Residential Lots

Montaña del Sol was a pioneer in condominium living in Costa Rica almost 40 years ago. The developers not only reforested large tracts of the mountain, but had the vision of living surrounded by and in touch with nature. The lots for sale are on average 25,000 ft², and include large mature trees.

The project includes residential lots on over 20ha of land. Currently, 20+ lots for residential construction are available for purchase. The community is looking for like-minded home owners, wishing to live with a priority on green-living, quality of life, and privacy.

Lots from **10,000 ft²** to over **50,000 ft²**
